

Battery Saver™ Pulse Charger, Maintainer and Tester Reference Sheet

6V/12V

10W - #1000L

The Battery Saver™ 10 Watt 6V and 12V Pulse Vehicle Battery Maintainer and Tester is the perfect companion for single battery applications, such as ATVs, Jet Skis, Motorcycles and vehicles with low parasitic power draw.

25W - #3015L

The Battery Saver™ 25 Watt 6V and 12V Pulse Vehicle Battery Maintainer and Tester is the perfect companion for Trucks, SUVs, Cars, Aircraft, Trailers and vehicles/applications with moderate parasitic power draw.

50W - #2365L

The Battery Saver™ 50 Watt 6V and 12V Pulse Vehicle Battery Charger, Maintainer and Tester is the most powerful Saver we offer. Ideal for Modern Cars, Trucks, SUVs, Farm Equipment, Sports Cars, Aircraft, Tractors and vehicles/applications with higher parasitic power draw.

24V • 36V • 48V

50W - VOLTAGE SPECIFIC - #2365L-24 / #2365L-36 / #2365L-48

We offer Voltage Specific variants of our 50 Watt Battery Saver™ unit. These are optimized for vehicles that utilize a 24V, 36V or 48V Battery System. 24V is ideal for Aircraft, Scooters and Scissor Lifts. 36V is ideal for Older Golf Carts and Military Equipment. 48V is ideal for Golf Carts and Hydraulics
