

# MICRO-JUMP™

EMERGENCY VEHICLE JUMP-STARTER / LAPTOP & DEVICE CHARGER

P/N: #5200

The **Micro-Jump™** is a vehicle jump starter for 12 Volt batteries. If your battery should go dead, simply connect up the Micro-Jump unit to the battery with the included Alligator Clip-On cables and turn the ignition. It really is that easy. No more large jumper cables, other vehicle or large metal boxes. The Micro-Jump can also function as a mobile power station with the ability to charge laptops, tablets and smart phones without direct AC power. Built-in is an LCD display which shows the life left in the unit.

**Jump Start  
Your Vehicle's  
Dead Battery  
Instantly!**
